March 2018 NEWSLETTER

Home Visits

We are looking for families who are interested in our Parents as Teachers Home Visiting Program.

This program is designed to help parents gain a better understanding of child development and also connect them to resources that will help you. We have personal visits once or twice each month designed to meet the individual needs of the family. During these visits we will discuss the child's development and identify any parenting challenges that are faced. This is a great program to help parents become more involved in their child's education, help parents and children, connect through play, and help parents become more confident in their parenting skills.

Play & Learn
